MINISTER OF TRANSPORT, MALAYSIA**

Liow: Debris found in Besut not from MH370

A team comprising personnel from the Department of Civil Aviation (DCA), the Ministry of Transport and MAS has examined the debris recently found on the shores of Besut, Terengganu, in order to determine its origins.

The assessment found that the debris does not match those of a Boeing 777, thus confirming that the debris is not from MH370.

The Ministry would like to thank the relevant authorities for facilitating the identification process.

We remain committed to the ongoing search for MH370, and will continue to keep the next-of-kin and public updated on any developments.
